Contents

Foreword ..... *xiii*
About the Authors ..... *xvii*
About the Technical Reviewer ..... *xviii*
Acknowledgments ..... *xix*

Chapter 1: Structured Query Language *1*

Standards *2*
The Many Dialects *3*

Chapter 2: An Introduction to Using Jet SQL in Access *7*

Building Access Queries *8*
How Access Uses SQL *14*
Debugging Tricks *29*

Chapter 3: An Introduction to Relational Database Theory *35*

The Rules of Normalization *36*
Creating Relationships *44*

Chapter 4: SQL Grammar *69*

Statement Structure *70*
Concatenating Literal Values and Variables *78*

Chapter 5: Retrieving Data *83*

The SELECT Statement *83*
Using SELECT Statements in SQL Objects *108*
Updateable Queries *120*

Chapter 6: Modifying Data *133*

Changing Existing Data with UPDATE *134*
Adding New Data with INSERT INTO *143*
Removing Data with DELETE *150*
Creating New Tables with SELECT INTO *162*

Chapter 7: Grouping and Summarizing Data *169*

Summarizing Data *170*
Using GROUP BY to Create Groups *178*
Creating Crosstab Queries *192*

Chapter 8: Creating and Modifying Tables *199*

Creating Tables *200*
Modifying a Table's Structure *208*

Chapter 9: Manipulating Relationships and Indexes *215*

Enforcing Referential Integrity *216*
About Jet Indexes *225*

Chapter 10: Advanced Manipulation Techniques *233*

SQL-Specific Queries *233*
Applying Security *242*
Transactional Processing *251*

Chapter 11: Queries: The Sequel 253

Creating and Using Subqueries 253
Parameter Queries 266

Chapter 12: An Introduction to the SQL Server 2000 Desktop Engine 279

What Is the SQL Desktop Engine? 280
Who Should Use the SQL Desktop Version 284
New to SQL Desktop 286
Differences between SQL Desktop and SQL Server 2000 287
Installing the SQL Desktop Version 287
Getting Acquainted with the SQL Desktop Environment 293
Access 2002 and Security 297
Forms in Access Data Projects 301

Chapter 13: Introduction to SQL Server 307

History of SQL Server 308
SQL Server 2000 Editions 309
Types of Installation 311
Installing SQL Server 2000 312
Installing the Monster 314
Introducing Enterprise Manager 323
Database Diagrams 329
Viewing and Working with Properties in the Designer from Access XP 345
Backing up Your Work 348
Database Properties 366
Improve Performance with Indexes 367

Chapter 14: SQL Server Views 371

Working with Views 372
Advantages of Views 373
Indexing Views 383

Chapter 15: SQL Server Structure *397*

Comparing Database and Server Properties *397*
System Databases *401*
Comparing SQL Server and MS Access 2002 Data Types *402*
Transact SQL (T-SQL) *404*
SQL Server @@ System Functions *425*
SQL Server Query Analyzer *435*
Object Browser *437*

Chapter 16: Working with Stored Procedures *441*

What Is a Stored Procedure? *441*
Query Builder in an Access Data Project *445*
Designing a Stored Procedure *446*
Design Inline Function *454*
Defaults and Nulls *463*
Parameters and Forms *465*
Designing Views *473*
Dealing with Errors *482*
SQL Server 2000 Stored Procedure Wizard *485*

Chapter 17: Upsizing Directly from Access *493*

How It Can Fall Apart *494*
Jet Extended Properties *510*
The Upsizing Wizard *511*

Chapter 18: Security Issues *541*

SQL Server Security Structure *543*
Manage Role, Membership and Other Object Permissions within the Database *547*
The Public Role *550*
The Application Role *550*
Consequences in the Access Data Project *556*
Creating the Database Roles *559*
Viewing the Results in Access 2002 ..... *565*
Creating the Clerical Role *566*

Creating the Groups 570
Creating the Users 572
Security and T-SQL 579

Chapter 19: SQL Server Meets the Web 585

Hypertext Markup Language 586
XML: The Future of Data Transfer? 591
Using Access 2002 to Export Schema 605
Active Server Pages and Access 2002 630

Appendix A: More SQL Solutions to Common Problems 655

Problem 1: Begin a Label Report at Any Label on the Sheet .655
Problem 2: Finding the Second-Highest or -Lowest Value in a Group 657
Problem 3: Adding a Summary Row to a Query 659
Problem 4: Returning Alternating Rows 660
Problem 5: Producing a Random Sort 661
Problem 6: Counting Specific Entries 662
Problem 7: Counting Unique Values 663
Problem 8: Finding Unique Values 664
Problem 9: Displaying Optional Data in a List Control 664
Problem 10: Custom Sort for Controls 665

Appendix B: An Introduction to Using ADO and ADOX with SQL 667

Microsoft ActiveX Data Objects Library (ADO) 667

Index 685
